- 9- Loosen the nut which is fixing the thermostat.
- 10- Replace the thermostat with new one.
- 11- Assemble the thermostat by applying following steps backwards.

C- Thermostat Knob :

You may adjust freezer temperature automatically by thermostat knob. If you turn the thermostat knob to ‘0’ position, freezing will be stopped.

Positions of thermostat knob;

5: Is a SUPER FREEZING position. When a lot of food is placed inside the appliance, adjust the thermostat knob to super freezing position (5). When the freezer temperature is reached to required temperature, readjust the thermostat knob to old position.

3-4: Is the recommended value for normal usage.

1-2: Use when less freezing is needed.
